

Rethabile Chomi

Mobile App and Web Developer

A passionate developer with a knack for creating user-friendly applications and solving complex problems. Whether it's crafting seamless hotel management systems, recipe apps with robust functionalities, or innovative Expo projects, I thrive on bringing ideas to life through clean, efficient code. I focus on delivering solutions that are not only functional but also beautifully designed to enhance user experiences. Let's build something amazing together!

EDUCATION

Grade 12

William Pescod High school

01/2015 - 11/2022

WORK EXPERIENCE

Intern/Trainee

Mlab Southern Africa

06/2024 - Present

Achievements/Tasks

- Hotel Management System: Built a hotel app with room booking, admin roles, and responsive design using React, Redux, Firebase, and CSS.
- Recipe App: Created a recipe management app with category-based organization, JWT authentication, and CRUD functionality using React, Node.js, Express, and JSON Server.
- Expo Birthday Card App: Designed a customizable birthday card app with text styling and decorations using React Native and Expo.
- Audio Recorder App: Developed an audio recording and playback app with secure login features using React Native, Expo, and local storage.
- Camera App: Created a camera app with flash toggling, photo preview, and camera switching using React Native and Expo.
- Social Sharing Feature for Hotel App: Added social media sharing buttons (Twitter, LinkedIn, Facebook) with dynamic room details using React Share Buttons.
- Authentication Systems: Implemented secure login/logout and role-based access using Firebase Auth, JWT, and local storage.
- Expo Projects: Built multiple user-friendly mobile applications with advanced features using React Native and Expo, focusing on seamless user experiences.
